

S.A. Investigates Concert Committee

by Phillip M. Karig

Student Association Senate Chairman Bob Harding directed Senator Andrew Rudack to head a committee which will investigate the activities of the Concert Committee. The action came less than twenty four hours before the start of last night's Emerson, Lake and Palmer concert; the investigation is apparently concerned with the Concert Committee's role in the production of the concert.

Patti Phillips, SA Vice President Activities will assuredly be a key figure in the investigation. Though the nature of the investigation has not yet been made public, it will center around the Committee's procedure for obtaining acts, and ticket policy if the discussion entertained by the Senate, about the matter, Tuesday night, is a reliable indicator.

Phillips expressed both surprise and shock when she learned of the impending investigation. "I don't see any sense in it," she said, "they could have come to either Mark Christansen, or the Concert Committee and we would have given them anything that they wanted".
